Objectives

A computer science student, aspiring to become a software engineer proficient in fundamental JavaScript, PHP, and other technologies, can build web applications. I am seeking an opportunity to prove my analytical, problem-solving, and teamwork skills to successfully fill the software engineer role at your company. I can be relied upon to help your company achieve its goals.

Skills

Programming Languages: PHP, Javascript ES5/ES6, Ruby, Java, Python

Web Design: HTML, CSS, LESS, SASS, Bootstrap

Frameworks: CodeIgniter, Express, Ruby on Rails

Libraries: JQuery, JQuery UI, Chart.js, Animate On Scroll(AOS), Socket.IO, SweetAlert2, Animate.css

Database: MySQL, PostgreSQL

Unit Testing: Selenium, Capybara, RSpec

Code Versioning: Git, Github

Others: NodeJS, Ajax, OOP, RWD, Database Design, ORM, TDD, EDD, Continuous Integration, SQL Queries

Education

Eulogio Amang Rodriguez Institute of Science and Technology | Manila, Metro Manila

Bachelor of Science in Computer Science

- 1st Year Dean Lister GPA: 1.45

Gardner College Diliman | Quezon City, Metro Manila

Information and Communication Technology | 07/2020

Grade 12 (AY 2019 - 2020)

- Top 3
- With Honors
- Most Active Award
- Best in Programming
- Best in Pagsulat sa Piling Larangan ng Technical-Vocational

Grade 11 (AY 2018 - 2019)

- With Honor
- Top 7 for the 1st Quarter
- Top 5 for the 2nd Quarter
- Top 3 for the 3rd Quarter
- Top 4 for the 4th Quarter

Training

- **Village 88** - Online Full-stack Web Development Training (October 2022)
- **Diliman College** - Lego Educational Robotics and Computer Technical Training (February 2018)

Certificates

- **Proficient in Backend Development** - passed the coding exam by building a mini Friendster app using Ruby, Ruby on Rails, Active Record, and PostgreSQL for 5 hours.
- **Proficient in Advanced Javascript** - Passed the coding exam by building a real-time drawing circles app using Javascript, Node JS, Express, and Socket.io for 4 hours.
- **Proficient in Advanced PHP** - passed the coding exam by coding front-end and back-end using HTML, CSS, JS, JQuery, Ajax, CodeIgniter, and MySQL for 5 hours.

Projects

Financial Transaction System ([Video Demo](#)) - The project helps to keep track of the financial records in the company, and I also added other things such as Monthly Tally, Tugboat Renting, and Drydock developed by using PHP, Bootstrap, Ajax, and JavaScript.

Product Dashboard ([Video Demo](#)) - A web app where users can leave a review of any product on the dashboard and any user can reply to any review of the product. The admin can create, update, and delete products. This project was developed using PHP, Bootstrap, and CodeIgniter.

Pacman Multiplayer Game ([Video Demo](#)) - I created a game like Pacman that you can play with your friends. This project connects with the server and allows you to send messages to people who are connected to the same server in real time while playing Pacman. It was developed using JavaScript, NodeJS, ExpressJS, and Socket.io.

Resume Score Guide for Software Engineers (by MC)

Use the following guideline to rate your own resume.

Keywords (2 pts possible)

- ☐ 1 point if you have more than 20 technology keywords relevant to the job you're applying for
- ☐ 1 additional point if you have more than 30 technology keywords that are relevant to the job you're applying for

Industry Experience (3 pts possible)

- ☐ 1 point if you have more than 3 years of industry experience as a coder
- ☐ 1 additional point if you have more than 5 years of industry experience as a coder in a reputable tech company
- ☐ 1 additional point if you have more than 10 years of solid industry experience as a coder that's relevant to the job you're applying for

Education (2 pts possible)

- ☐ 1 point if you have a CS degree
- ☐ 0.5 additional point if you graduated from the Top 3 CS/IT schools in the country.
- ☐ 0.5 additional point if you graduated from the Top 10 CS/IT schools in the world (e.g. Stanford, Berkeley, etc)

Projects (3 pts possible)

- ☐ 1 point if you have more than 3 awesome projects (awesome meaning it would impress even developers with years of experience)
- ☐ 1 point if in 30 seconds or less, you demonstrate how awesome your project is to potential hiring managers through screenshots or video
- ☐ 1 additional point if each of your project would take someone like Michael at least once week to re-create
- ☐ minus 2 points if your first project would take someone like Michael less than a few days to re-create

Misc (-8 pts to +1 pt possible)

- ☐ 1 point if your bullet points under work experience are things that show how you're an amazing A player
- ☐ minus 1 point if your bullet points are things that the worst employee/student ever in that company/school can also say or if you don't have any bullet points under some work experiences or educational experience.
- ☐ minus 2 points if you have spelling or grammar errors
- ☐ minus 1 point if your resume is multiple column
- ☐ minus 2 points if you're using more than 4 font sizes and your resume alignment is off
- ☐ minus 2 points if your resume is not dense enough

Your Total Score

Category	Keywords (2 pts possible)	Industry Experience (3 pts possible)	Education (2 pts possible)	Projects (3 pts possible)	Misc (-8 to 1 pts possible)	Total *
Your Points	2	0	1	2	1	6 / 10 pts

* If you want to be job ready, you should strive to have your resume be at least a 7/10. Anything less than that, you'll spend too much time waiting for interviews and just not get enough interviews at all.
